

# SMARTBrief

T E C H N I C A L B U L L E T I N

**DATE:** Thursday December 14, 2006      **No:** SB-0121406  
**TO:** Contractors & Distributors      **Page** 1 of 1  
**FROM:** Metro Technical Services Division  
**SUBJECT:** **Storage of Metro materials.**

---

Metro **factory wrapped panel pallets should be stored inside**, if this cannot be done then the pallets must be protected from bad weather by **completely waterproof tarps**.

Wet pallets can lead to water seeping between panels and this over time can cause white staining. The white stains are virtually impossible to remove. The factory applied pallet covers provide only temporary protection, and are by no means sufficient for storage.
